# THE FOUNDATION'S VALUES

## HUMANITY (HUMAN-CENTRISM)

We create an environment in which all children, especially those war-affected, receive help while preserving their right to respect and dignity. A human is always at the center of all the decisions and projects that we implement.

## TRANSPARENCY

It is important for us to be transparent and accountable. Therefore, we only act according to Ukrainian legislation. Every year we undergo audit at own expense.

## EFFICIENCY

The main task of our charity foundation is to provide assistance in a timely and high-quality manner. We do not implement initiatives that are unnecessary. Therefore, any project of our foundation starts with an assessment of needs and requests. That's why we only work on projects where we have experience and expertise.

## DEVELOPMENT

We are always looking for system solutions that will be long-term and sustainable. Even when we distribute food aid, we shape it so that it enables our beneficiaries to live in dignity and get a boost to development. We share our experience and practices with other players in the public sector. The Foundation also responsibly forms project packages, budgets, and schedules so that employees can learn, grow, and develop.

This is confirmed by a validation process that goes far beyond a simple reliance on a foreign government database.

The CAF International validating process includes a review of an organization's key operational elements such as their governance structure, registration status, annual financial statements, online and media presence, and their board members and senior staff. This validating process ensures that all funds sent to the organization will be used charitably, and it allows the CAF International and their donors to mitigate the risk of fraud, money laundering, and other criminal activities.

**2. "Your Support" is the only active local focal point of Minimum humanitarian standards of response SPHERE in Ukraine. Country focal points are organisations who actively promote and advocate for the application of the Sphere standards at country-level.** «SPHERE» was founded in 1997 year by a group of professionals aiming to improve the quality of humanitarian work during disasters and crises. Today, SPHERE unites 14 focal points in Europe, including Ukraine (our foundation) and 71 worldwide.

We are pleased to see our alumni already applying their new knowledge to enhance their work.

The "Your Support" Charity Fund will continue supporting the development of civil society by providing valuable resources, knowledge, and assistance to those working for the good of society.

\* This course was created by the "Your Support" Charitable Foundation with the support of ISAR Ednannia within the framework of the project "Initiative for Sectoral Support of Civil Society."

# MEETUP: BUSINESS AND CHARITY

The team at the "Tvoya Opора" Charity Fund, with the support of ISAR Ednannia, regularly organizes expert and inspiring **"MeetUP: Business and Charity"** events for CSOs.

**These gatherings have already brought together over 150 participants.**

We invite leading experts in business, communications, and other fields as speakers for these events to explore how partnerships between business and charity impact societal development. These areas have long been interconnected: companies contribute to social projects that improve lives and strengthen community ties. During the war, such collaboration has become even more relevant and transformed into a powerful trend.

Participants in our MeetUPs learn about effective collaboration strategies based on real cases from successful business leaders, representatives of retail, banking institutions, and well-known figures. We discuss ways to develop partnerships, work harmoniously, and implement joint projects that will remain relevant both today and in the future, in post-war times. Additionally, every participant can join discussions, ask questions to the speakers, and gain valuable experience.

\* MeetUP was created by the Charity Foundation "Your Support" with the support of ISAR Unity within the framework of the project "Initiative for Sectoral Support of Civil Society".

During this year, a reanimobile of the neonatal intensive care unit leaves almost every day to save someone's little life (261 trips were made). It became especially important for the transportation of children from the frontline territories, such as Nikopol. Due to the quick work of doctors and the modern equipment of the ambulance, it is possible to quickly and safely deliver children to medical institutions, where they are provided with the necessary assistance.

# THE GUIDANCE FOR THE NEXT 10 YEARS

Ten years ago, we started our mission to help those who need it most. During this time, we have done a lot: saved lives, gave hope, supported, and united. But there is still so much ahead!

## **The next decade is a time of new challenges and new victories:**

**1. Health care.** We will continue to support Ukrainian hospitals by expanding our programs for the supply of medical equipment, medicines, and consumables. In the next 10 years, we plan to:

- expand the network of hospitals that constantly receive our help to 300 medical institutions;
- improve our unique monitoring system to more effectively evaluate the results of our assistance and implement it in other charities;
- increase targeted assistance to children with congenital heart defects, providing them with high-quality medical care and support.

**2. Assistance to orphans and children deprived of parental care.** We strive to provide comfortable conditions for life and for children's development. Our plans for the future are:

- an increase in funding for providing housing for children who lost their homes during the war (a family-type children's home).
- creation of socialization and support programs for teenagers preparing for independent life.

**3. Development of the Family Center for Mental Health.** We want to expand the activities of our Center to provide even more people with psychosocial support. We plan to:

- open extra centers of mental health in other regions of Ukraine;
- expand the range of services, including new trainings and seminars on important social topics;
- attract more specialists to our multidisciplinary team to provide quality services..

**4. Humanitarian aid and support for IDPs.** We will continue to provide humanitarian assistance to all victims of war, expanding our efforts. We will attract new partners and donors для to increase humanitarian aid.

**5. The Shelter in Lviv.** Our shelter "Your Support" shelter will remain an important center of support for displaced people. We are currently planning to increase the number of places to stay, expand employment and social integration programs for shelter residents, and support initiatives for psychosocial care, medical care, and legal support for all residents.

We believe that the next decade will be a time of new achievements and victories for the "Your Support" Foundation. Together with you, our donors and partners, we will continue our mission - to help those who need it most, do even more good, and build a better future for Ukraine.

Your support is not just financial help, it is faith in our common future.

**Thank you for being with us!**
